

PROJECT WORK
FORMATIVE TEST –4
IX- CLASS
FEBRUARY -2024

ఇది కేవలం నమూనాగా మాత్రమే తయారు చేయడం జరిగింది. ప్రాజెక్ట్ ఇలాగే తయారు చేయవలసిన అవసరం లేదు. మీ స్థానిక అవసరాల దృష్ట్యా మార్పు చేసుకోగలరు. ఈ ప్రాజెక్ట్ ఆంగ్ల మాధ్యమం విద్యార్థులను దృష్టిలో పెట్టుకుని చేసింది.

**PROJECT WORK
FORMATIVE TEST –4
IX - CLASS
FEBRUARY -2024**

Priliminary information :

NAME OF THE STUDENT	K.V.KRISHNA REDDY
CLASS	IX
NAME OT THE UNIT	NATURAL VEGETATION AND WILDLIFE
TITLE OF THE PROJECT	SAVE VULTURE
PROJECT NO	04
TYPE OF PROJECT	INDIVIDUAL
DATE OF PROJECT ASSIGNED	
DATE OF PROJECT SUBMISSION	

	Collection of Data	Project Report	Presentation	Total Marks	Grade
Marks Allotted	03	04	03	10	
Marks Obtained					

TITLE OF THE PROJECT

SAVE VULTURE

INTRODUCTION

Life history and lifestyle of vultures will be introduced

AIM OF THE PROJECT

We have chosen this project with the aim of fully understanding about save vulture project

COLLECTION OF INFORMATION

We have collected this information from our social text book, news papers ,
And the internet .

RECORDING OF INFORMATION

Indian vultures are a keystone species in their habitats. They have been listed as Critically Endangered on the IUCN Red List since 2002, as their population has severely declined over the past few decades. It is estimated that there are 5,000-15,000 mature individuals in wild.

Why should we save Vultures :

Vultures are scavengers, i.e. they feed on the carcasses of dead animals thus cleaning up the environment. This helps prevent the spread of diseases and maintains the ecological balance. And so, a decline in the vultures' population directly impacts the environment.

Why diclofenac banned in India :

The veterinary use of Diclofenac has been already banned by the Government of India in 2006 - after a big decline in vulture population in the country. This is one of the big successes for the Mumbai-headquartered Bombay Natural History Society (BNHS).

What is the save for vulture project :

SAVE stands for Saving Asia's Vultures from Extinction and it is a consortium of like-minded, regional and international organisations and has been created to oversee and co-ordinate conservation, campaigning and fundraising activities to help the plight of south Asia's vultures.

How can we save vultures :

To Prevent the poisoning of the principal food of vultures, the cattle carcasses, with veterinary NSAIDs, by ensuring that sale of veterinary NSAIDs is regulated and is disbursed only on prescription and by ensuring that treatment of livestock is done only by qualified veterinarians.

What is the vulture action plan for 2025 :

The new plan automatically removes veterinary use of a drug if it is found to be toxic to vultures. This is to be done with the help of Drugs Controller General of India. Under the plan, every state will host at least one vulture safe zone to conserve the remnant population of vultures in the state.

CONCLUSION

We are very much thankful to our social studies teacher and also the Headmaster of our school for their cooperation and guidance Throughout the project work .
